EXPERIENCE

- **Jr MERN Stack Developer | Webhibe Technologies Pvt Ltd.** (Jan '2024 - Present)
Developed frontend, backend APIs, and optimized schemas for both relational and non-relational databases.
- **Full Stack Developer | Freelancing** (Jun '2023 - Present)
Managed end-to-end project delivery for web and mobile apps, from initial planning and development to final deployment and post-launch support.

EDUCATION

- Btech in CSE | Gargi Memorial Institute of Technology CGPA: 8.6 | (2020 - 2024)
- XII (WBCHSE) | Sevayatan Vidyalaya 88.2% | (2020 - 2024)

ACADEMIC PROJECTS

- **RhythmChat** [Repo Url](#) [Live Url](#)
A Real Time Chat Application (fully responsive) with audio call, video call and status share facilities. Here I built a video transcoding system for video playback based on users' network speeds.
Using - React.js, Node.js, Peer.js, Socket.io, MongoDB, Redis, Firebase
- **Portfolio** [Repo Url](#) [Live Url](#)
This is my personal portfolio website (fully responsive). It's a full stack application built with Next.js, allowing me to modify all entities via its dashboard.
Using - Next.js, Nextauth.js, Shadcn UI, PostgreSQL
- **Web-Plugin-Kit** [Repo Url](#) [Live Url](#)
Npm package that provides React.js, Node.js and Next.js project templates in both JavaScript And TypeScript that contain a very useful file structure with important configurations.
Using - Node.js

SKILLS

- **Web Framework:** React.js, Next.js, Node.js, Express.js
- **Web Design:** HTML, CSS, Tailwind CSS
- **Database:** MongoDB, PostgreSQL
- **Language:** Java, JavaScript, TypeScript
- **Others:** Git, Postman, Firebase

HOBBIES

- Passionate about exploring new places and cultures. And a true enthusiast of coding; for me, it's not just a profession but a passion
