Summary

Full Stack Developer with 2.5+ years of experience building scalable backend and frontend systems using NodeJS, ReactJS, and NextJS. Worked across pharma and insurance enterprise domains. Recognized with the Rising Star Award for contributions in software development at INT. Passionate about clean architecture and the deep JavaScript ecosystem.

Skills

Languages: JavaScript (ES6+), TypeScript, SQL

AI & Automation: OpenAI API / Gemini API integrations, Vector Databases, LangChain, RAG

Technologies: ReactJS, NodeJS, NextJS, ExpressJS, REST APIs, WebRTC, WebSocket, HTML, CSS, Tailwind CSS

Databases & Tools: MongoDB, PostgreSQL, Redis, Docker, AWS (EC2, S3), Git, Postman, Firebase, Azure (AD, SSO)

Work Experience

Indus Net Technologies Pvt. Ltd., Kolkata

Dec 2024 - Present

Associate Software Engineer

- **Basecamp Portal (Neuland Labs):** Built and owned 100+ APIs across CAPEX, DMF, Leave & Attendance, and Employee Lifecycle modules serving 5,000-7,000 employees across 6-7 plant and corporate locations.
- Optimized attendance lifecycle by migrating from scheduled cron-based processing to real-time leave approval sync, improving attendance accuracy by 80%.
- Led data migration of 1.2M+ records from legacy systems across 12-13 tables including leave applications and credit history, ensuring zero data loss with validation and reconciliation.
- Implemented role-based access control (RBAC) and multi-level approval workflows to enable secure enterprise operations at scale.
- **Ageas Federal Life Insurance (AFLI):** Developed and integrated GTL insurance product with 50+ APIs, supporting thousands of customer portal users with end-to-end policy lifecycle management.
- Integrated 10-15 third-party service flows and implemented SSO-based authentication for seamless and secure customer access.

Webhibe Technologies Pvt. Ltd., Kolkata

Jan 2024 - Dec 2024

Jr MERN Stack Developer

- Contributed to building a B2C eCommerce platform, implementing cart functionality and Stripe payment integration using MERN stack.
- Collaborated with senior developers to integrate WebRTC and WebSocket-based real-time communication features in a WhatsApp-like messaging application.
- Worked across 3-4 parallel projects in a team of 3-4 developers, gaining hands-on experience in full-stack development and agile workflows.

Education

Gargi Memorial Institute of Technology, Kolkata

Aug 2020 - July 2025

B.Tech in Computer Science and Engineering

CGPA: 8.6/10

Sevayatan Vidyalaya, Jhargram

2018 - 2020

Higher Secondary in Science

Percentage: 88.2%

Projects

PrepWise AI — AI-Powered Resume-Based Interview Platform

- Built scalable backend and resume-processing workflows with RAG and Gemini LLM to generate contextual interview questions and adaptive follow-up interactions.
- Built real-time audio/video interview experiences using WebRTC and Socket.IO for low-latency communication.
- Next.js, Node.js, Express.js, TypeScript, MongoDB, Gemini API, WebRTC, Socket.IO, RAG
- **Repo:** github.com/Ramkrishnamaity/prepwise-ai

DevStack CLI — Full Stack Project Scaffolding CLI

- Published an npm package `@_ramkrishna11/devstack-cli` supporting 6 template variants to scaffold React, Node.js, and Next.js projects in JavaScript and TypeScript with production-ready configurations, eliminating repetitive setup overhead.
- Built with: Node.js, NPM
- **Repo:** github.com/Ramkrishnamaity/devstack-cli
